

Quotient
Sciences

Molecule
to cure.
Fast.™

Humanity needs solutions. **Fast.**

Quotient Sciences
Our business at a glance

Welcome to Quotient Sciences

Who we are

Quotient Sciences is a drug development and manufacturing accelerator providing integrated services across the entire development pathway.

Molecule to cure. Fast.™

Our manifesto

Quotient Sciences.

Cutting through silos across a range of drug development capabilities. Saving precious time and money in getting drugs to patients.

Everything we do for our customers is driven by an unswerving belief that ideas need to become solutions, molecules need to become cures, fast.

Because humanity needs solutions, fast.

Our programs and services

We deliver turnkey solutions for shortening development timelines and individual services to meet our customers' needs.

Integrated programs

Turnkey solutions for accelerating drug development

Unparalleled in the pharmaceutical industry, our Integrated Programs get molecules to patients faster by dramatically shortening development times.

Candidate Selection

Selecting the right molecules for development

Early Development

Accelerating molecules through to proof-of-concept

Late Development

Accelerating products through to commercial manufacture

Tailored services

Individual services to meet customer needs

Our tailored services help support our customers across the entire development pathway.

Drug Substance

Route Scouting, PR&D, GMP Manufacture, DOE/QbD, Isotope Labelling (14C/SIL)

Formulation Development

Dosage Forms, Pre-Formulation, Solubilization, Modified Release, Pediatrics

Clinical Trial Manufacturing

Phase I-III Clinical Supplies, Adaptive Manufacturing, High Potency APIs

Commercial Manufacturing

Tech Transfer, Scale-Up, Registration Batches, Process Validation, Commercial Production

Clinical Pharmacology

First-in-Human, BA/BE, Human ADME, DDI, Pharmacy Compounding

Bioanalytical Services

Biotransformation, Quantitative Biological & Chemical Analysis

Data Sciences

Data Management, Programming, Statistics/PK, Medical Writing

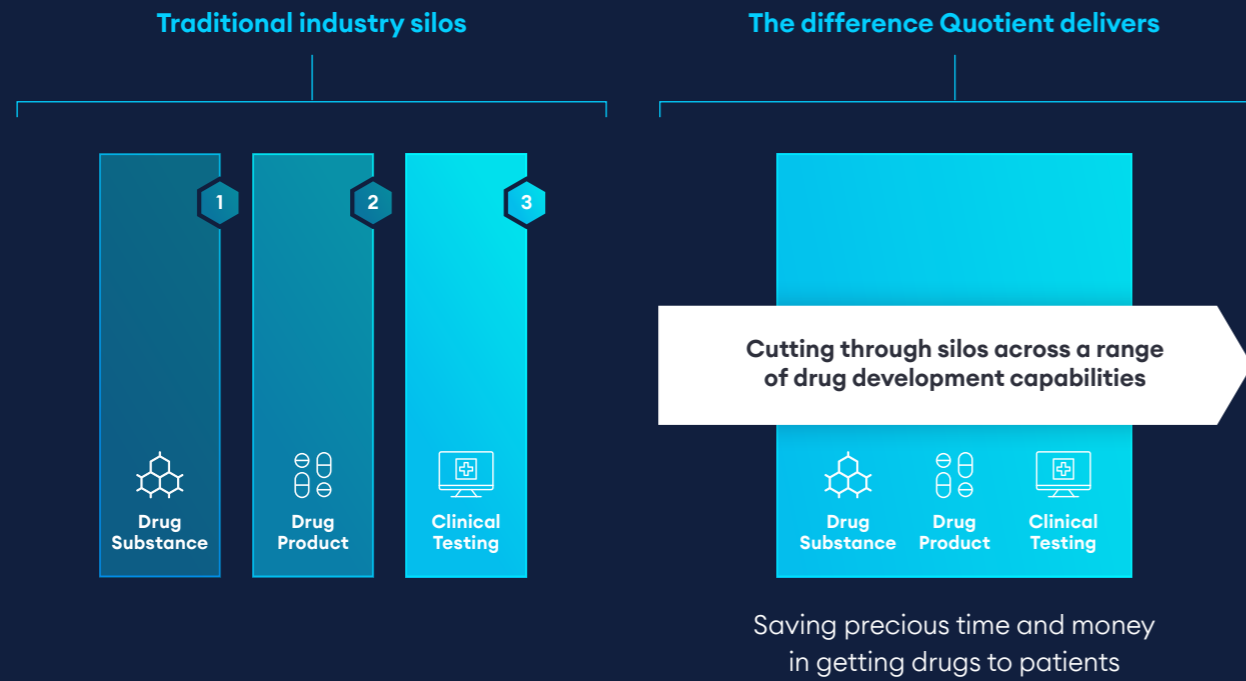

Drug Development Consulting

Scientific Advice, Developability Assessment, Program Design

Our differentiation

By cutting through silos and integrating across a range of capabilities, we help customers advance molecules across the full development cycle.

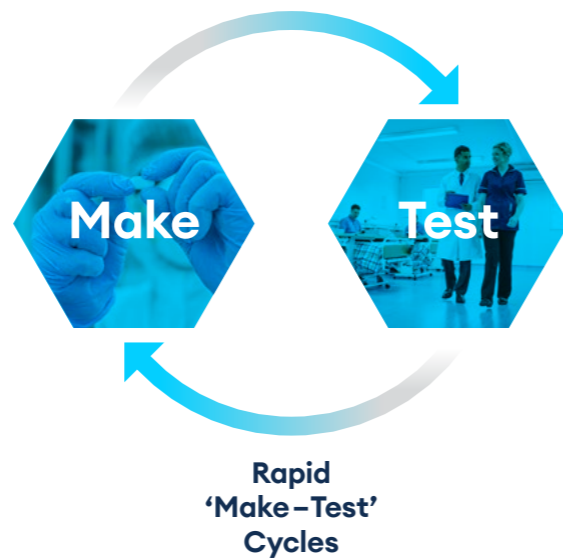

Translational Pharmaceuticals®

Our flagship platform for accelerating drug development

Quotient Sciences brought meaningful innovation to the pharmaceutical industry in 2008 with Translational Pharmaceuticals® – a unique delivery platform which shortens development times by more than 12 months.

By integrating drug product and clinical testing activities, Translational Pharmaceuticals accelerates molecules through development. This saves time and money in reaching key milestones as quickly and efficiently as possible, ensuring better decision making and more streamlined outsourcing.

400+ | integrated drug programs completed

Over 30 years' experience

550+
active customers from across the world

The world's top **20** pharma companies have put their trust in us

Small biotech and emerging pharma makes up **70%** of our business

Molecules

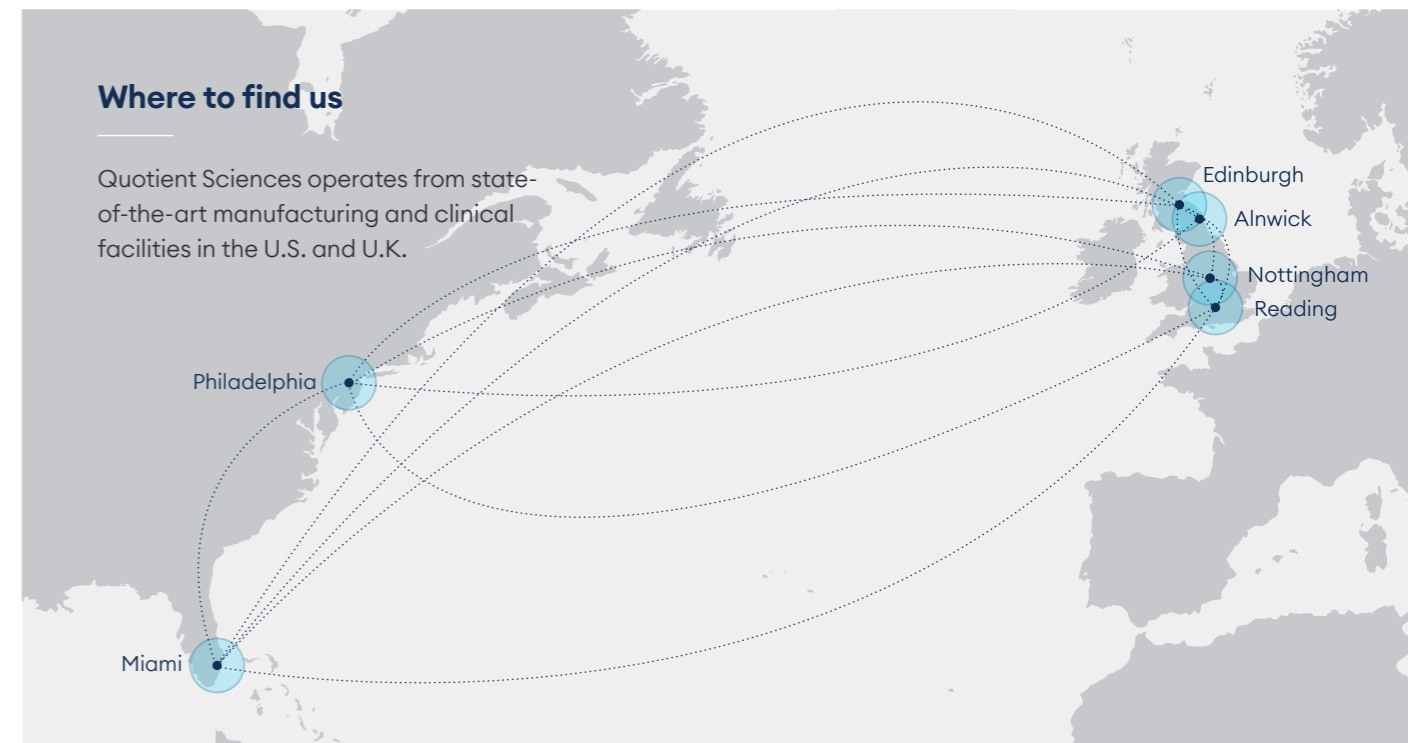

Experience of **3,000** molecules across all stages of development

Work on **150+** new molecules each year

200+ peer reviewed publications and scientific posters

Where to find us

Quotient Sciences operates from state-of-the-art manufacturing and clinical facilities in the U.S. and U.K.

UK locations

Nottingham

Mere Way,
Ruddington,
Nottingham, NG11 6JS

 +44 (0)115 974 9000

Edinburgh
